

Calder Drift Camp site Directions

Wakefield Districts Scout Campsite is located off the A636 coming out of Wakefield towards Bretton. (For those that know the area it is the site of the old Coal board drift mine – now regenerated).

From the scout hut head towards Netherton taking a left turn at the mini roundabout on to Blacker lane. At the Crossroads turn right on to Denby Dale road (A636) Follow the road past Blacker Hall farm (on left).

The site is situated on the left about 1.25miles from blacker hall farm, past the paint ball centre. A Wooden fence is situated either side of the entrance gate just after the trees disappear on both sides of the road. We will try to place some at the entrance with a flourescent jacket on – look out for it!

There is now a postcode for the site but it will depend on how up to date your sat nav is (Calder Drift campsite, Denby Dale road WF4 4JN). –
However I have also provided a grid reference of the site on Land ranger 110 map is SE 288 148.

The approach road to the site is via a wide, gated, concrete roadway.
